What is AuricLight

TRAIN YOUR EMOTIONAL HEALTH

Have you always wanted to be able to actually see inside yourself and your clients?

The AuricLight System does exactly that. By measuring your Bio-Data 4 times a second through the SpO2 sensor located in the AuricLight Bracelet. This is the first and only System that is able to do this while also being affordable, easy-to-use & portable.

The AuricLight System is a high-tech Biofeedback System that uses your mobile device in conjunction with the AuricLight Bracelet to understand more about who you are, see your true personality, your life's purpose and your inner chi.

It's the perfect tool to help you and/or your clients in an innovative way because you/they instantly see Energy changes as they happen. This is very informative and gives you/them the ability to learn about stress, emotional imbalances, positive thoughts and becoming more aware.

How does the AuricLight System work?

The AuricLight System™ uses a modern fitness band that measures with SPO2 sensor technology your GSR (Galvanic Skin Resistance) values, temperature, pulse, heart rate and your blood oxygen.

The collected data is sent to the AuricLight App and there gets analyzed, re-evaluated and re-coordinated into colors. These colors represent your physical, emotional and mental reactions, which reflect your unconscious mind-body state. The data is sent wirelessly via Bluetooth and displays your Aura, Chakra- and Graph page in real-time.

The AuricLight System helps you to control your body responses, which happens best when you see them live. Your emotional reactions in your body are measured through SPO2 technology with the Fitness band and get correlated into colors through the AuricLight software. Now you can watch these reactions in colors as your Aura in real time.
